Final Draft NM Planning Priority List 12 21 2017.docx

Hi,
Not sure why the margins are messed up and everything prints off the page. Is it the new printers or document setup?

Thanks

Thanks, Nikki. Thanks for coordinating on this exercise as we figure out how to fund bureau priorities.

I am bringing in Kristin and WO 210, for awareness and potential follow-up next week.
[I'll be on A/L.]

If I am reading the first document correctly, the highest priority plans are numbers 1 to 6?

Cally, Chris, Steve,

Attached is the draft NM Priority List that we developed for your review. Steve and I spoke and it sounds like there may be funding to allocate from 1610 for the highest priorities. We are also taking a hard look at our 400 funds and will let

you know what's available. Sally and Tim are coordinating this list with the 3356 action plan since this one is responsive to all orders, proclamations, and other recent actions.

The table in the write up has more detailed information regarding the "concerns" from the final report that needs to be addressed. I also created a one page summary priority table for a quick look (pdf attached).

BLM National Monuments - Priority Plans

12/21/2017

The following outlines the BLMs priority approach to address any planning required in response to Presidential actions resulting from the Secretary's December 5th, 2017 *Revised Final Report Summarizing Findings of the Review of Designations Under the Antiquities Act* (Final Report).

Introduction

The BLM manages 27 National Monuments. Santa Rosa and San Jacinto Mountains and Prehistoric Trackways are designated by Congress and the other 25 are designated by Presidential Proclamation through the Antiquities Act. Fourteen National Monuments have existing Resource Management Plans (RMPs), four require RMP updates to address monument management, and nine monuments are currently in some phase of a planning amendment process.

Executive Order 13792

Executive Order 13792, "Presidential Executive Order on the Review of Designations Under the Antiquities Act," dated April 26, 2017, (Order or E.O. 13792) directed the Secretary to conduct a review of certain Presidential designations made under the Act, to determine if the designations conformed to the policies set forth in the Order. The Order instructed that two reports summarizing the review be provided:

- a. an Interim Report within 45 days, addressing the Bears Ears National Monument established by Proclamation No. 9558, dated December 28, 2016, and "other such designations as the Secretary determines to be appropriate for inclusion"; and
- b. a Final Report within 120 days, summarizing the findings of the review for all other monument designations covered by the Order.

The Interim Report was issued on June 10, 2017.

Presidential Proclamations Modifying the Grand Staircase-Escalante and Bears Ears National Monuments

On December 4th the President issued the Presidential Proclamation Modifying the Grand Staircase-Escalante National Monument and the Presidential Proclamation Modifying the Bears Ears National Monument.

- The Proclamation Modifying the Grand Staircase-Escalante National modified the boundaries of the 1.7 million acres of Federal lands to 3 units: the Grand Staircase, Kaiparowits, and Escalante Canyons units of the monument (1,003,863 acres).
- The Proclamation Modifying the Bears Ears National Monument modified the boundaries of the 1.35 million acres of Federal lands to 2 units: the Shash Jáa area and the Indian Creek area; and excluded from its designation and reservation approximately 1,150,860 acres.

Secretary's December 5th, 2017 Final Report

On December 5th, in accordance with the Order, Secretary Zinke released the Final Report with results and recommendations for several monuments. The Final Report included:

- A concern for "landscape level designations" on BLM-managed lands becoming overlain by a more restrictive management regime, which "has the effect of narrowing the range of uses and limiting BLM's multiple-use mission." Absent specific assurances, traditional uses of the land (grazing, timber production, mining, fishing, hunting, recreation, and other cultural uses) "are unnecessarily restricted and especially harm rural communities in western states given that these towns have historically benefited and been economically sustained by grazing, mining, and timber production on nearby public lands, narrowing the range of uses and limiting BLM's multiple-use mission."
- A statement that DOI has plans to undertake a review of existing monument management plans and update them to be consistent with public access, infrastructure, traditional use, tribal cultural use, and hunting and fishing rights.
- Recommendations to modify the boundaries and/or management plans for Cascade-Siskiyou, Gold Butte (GBNM), Organ Mountains-Desert Peaks (OMDPNM) and Rio Grande del Norte (RGDNNM) National Monuments, in addition to the Bears Ears (BENM) and Grand Staircase-Escalante National Monuments.
- Recommendations for congressional action to establish tribal co-management for designated cultural areas within BENM, GBNM, OMDPNM, and RGDNNM.

Secretarial Order 3356

On September 15, 2017, Secretarial Order 3356 was issued which directs the BLM to "amend National Monument Management Plans to include or expand hunting, recreational shooting, and fishing opportunities to the extent practicable under the law." The BLM is developing an action plan to identify recommendations to amend or develop National Monument Management Plans to expand opportunities; and to identify potential actions that would further enhance hunting, fishing, and recreational shooting opportunities within National Monuments.

The action plan established priorities to implement Secretarial Order 3356 Section 4b(1) of by identifying (1) National Monument Management Plans that could be developed or amended to include or expand opportunities; and (2) potential actions that would further enhance hunting, fishing, and recreational shooting opportunities within National Monuments. For the S.O. 3356 action plan, high priority was given to National Monuments with current planning efforts underway and those with a planning-related restriction recommended for assessment. Medium priority was given to National Monuments currently with no plans in place or needs a plan amendment. Low priority was given to implementation actions

which expand hunting, recreational shooting, and fishing; to those with restrictions with no recommendation for assessment; and those with restrictions regulated and enacted by the States.

Priority List for Executive Order 13792 and Secretarial Order 3356

In order to best respond to the recent Proclamations, recommendations from the Final Report, as well as expand recreational access, planning needs for national monuments were put in priority order. Priorities were based on the following:

- Highest Priority: National Monuments designated by Presidential Proclamation and where Presidential actions have occurred since the Secretary's 12/5/17 Final Report was released.
- High Priority: National Monuments designated by Presidential Proclamation, and where recommendations were identified in the Secretary's 12/5/17 Final Report, but no subsequent Presidential action has occurred.
- Medium Priority: National Monuments not identified in the Secretary's 12/5/17 Final Report, but identified as a high priority for increasing recreational access under S.O. 3356.
- Low Priority: National Monuments not identified in the Secretary's 12/5/17 Final Report, not included in the E.O.13792 review, or with no restrictions on fishing, hunting or recreational shooting.

Based on the criteria, the following table shows the monuments in priority order for planning purposes, including the monument name, current planning status, the relevant recommendations identified in the Secretary's 12/5/17 Final Report, and options to address the recommendations.

BLM National Monument Priority List					
National Monument and State	Existing Land Use Plan	Current Planning Status	Recommendations in Final Report	Action	Rationale for Priority List
Highest Priority					
Bears Ears, Utah	Monticello RMP, 2008.	NOI drafted	Develop management plan to protect objects, prioritize public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights.	Initiate plan revision for Indian Creek Unit, then for Shash Jaa Unit with USFS. Prepare Monument Advisory Council charters. Prioritize infrastructure projects.	Designated area was adjusted by Presidential Proclamation on 12/4/17. Highest priority, no Monument Plan in place and the age of the existing RMP.
Grand Staircase Escalante, Utah	GSENM MMP, 1999	NOI drafted Currently a NOA for the GSENM DRMP A/DEIS (livestock grazing amendment) is also routing in DTS.	Decrease in actual cattle from restrictions, limited motorized vehicle use, areas in GSENM contain several billion tons of coal, only NM with no public input. Develop management plan to protect objects, prioritize public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights.	Four new plans for Grand Staircase, Kaiparowits, Escalante Canyons Units, and lands previously in GSENM. Single EIS, 4 RODS.	The designated area was adjusted by Presidential Proclamation on 12/4/17 creating non NM public lands subject to different authorities and policies than those identified in the current RMP.
